## Join us, to defend Life and the Family - The Family IS our future

- We are the only Ontario political party whose objective is strengthening the traditional family, the building block of society.
- The family is the focal point of all political action: all of the dimensions of human and social life are related to the well being of the family. The future of humanity is firmly tied to the future of the family. The family is society's best safety net.
- We are a party with written principles, that do not change with the political climate. We recognize fundamental human rights, in the following order: right to life (from conception to natural death), right to freedom and right to own property.
- If you are over 14 years of age, agree with FCP Principles, and are not member of another Ontario Provincial party, then join us (or renew your membership). We will grow faster and influence government with your support.

Annual Membership cost: Individual: \$10.00 - Family: \$20.00

If your cheque has one signature only, we must issue the receipt in the name of the person who signed the cheque, although the receipt may be used by either the husband or the wife.

If your cheque is out of a joint account, you can have both of your signatures on the cheque, and below your signatures you can write a percentage (e.g.: "50% each"). That allows us to issue two individual tax credit receipts. In some cases, this may be an advantage when it comes to filing your income tax return next year.
