

The HST!

“A financial war against Ontario families”

McGuinty twice campaigned on no tax increases!
The Liberal's HST attacks families where they live, spreading taxes to all kinds of provincially untaxed goods and services for families including:

- 💰 Energy costs - gasoline, electricity, natural gas – will rise 8%
- 💰 All purchased services will rise by 8% ... haircuts, dry cleaning, membership fees, taxis, internet access fees, postage & shipping, accounting, legal services, real estate commissions, home renovations, accountants, financial advisors, engineers, architects, graphic designers
- 💰 All recreational fees (gym memberships, sports fees, etc.) will be taxed
- 💰 Home builders say the tax will add \$46,000 to the cost of a new home in Toronto.
- 💰 Ontario Real Estate association says the HST will add \$2000 to the average real estate transaction

This move disadvantages all families. For many families this will require parents to work more hours, or take on an extra job to make ends meet. The result: less time raising and nurturing your children.

As the defender of traditional family principles, the FCP must weigh-in on the HST. The FCP Central office is developing a campaign to inform individuals and families about this tax grab, motivate people, and provide the tools to respond. Plans for the campaign include posters (like the one displayed), brochures, post cards (electronic and hard copy), petitions (electronic and hard copy), video clips informing families of the affect of this hideous blight.
